### PSYCHOLOGY EXPERIENCES AND RESEARCH

- **Research:** I researched about the special education centre "ORKIDS" and analysed the techniques used by special educators to teach the children the subjects
- **Survey:** I carried out a survey with children with special needs on how ORKIDS has helped them in education with questions about the working of the centre, the teaching methods and the self-confidence acquired by the students
- **Psycho analysis:** I analysed the psychology of Meursault- the protagonist of "The Stranger" by Albert Camus- exploring the reason behind his actions using various theories like those of Freud's and Frankl's.
- **Critical Review:** "*Supervenience and Psychiatry: Are Mental Disorders Brain Disorders?*" by the *Americal Psychological Association* analysing arguments and thought experiments.
- **Tweet Booklet:** I collected tweets on politics and psychology, to understand the various opinions people have on current affairs and enhance my knowledge on the subjects.
- **Mentoring:** I participated in teaching sessions at ORKIDS and accompanied special educators when they taught a lesson to the student.
- **Orkids:** I interned at the ORKIDS centre of my school where I interacted with children with special needs and learnt more about special education
- **Outreach and Empowerment:** Reach to Teach, with anchor funder being Larry Ellison Foundation, works in partnership with State Governments/ other organisations on strengthening comprehensive learning outcomes. Worked on developing a handbook on the mental health of students and young people.
- **Internship:**
  - **Fortis Hospitals**, a 9,000-bed healthcare provider in India, completed a five-day summer internship in the Department of Mental Health and Behavioural Sciences. Learning and Observations: I learnt about the modus operandi of psychologists and psychiatrists', learnt about various branches of psychology and prominent case studies of patients in psychiatry giving insight on different ways of dealing with Psychiatric patients, type of questions to be asked during therapy using various scientific methods.
  - **Indian Spinal Injuries Centre**, New Delhi is a Multi-speciality hospital. I am gaining hands-on exposure to mental health from the integrated perspectives of psychiatry, neuroscience, and psychology. My work involves observing clinical practices, understanding diagnostic frameworks, and learning how multidisciplinary teams collaborate to support patient well-being.
